

isae::sensor\_config

```
graph BT; imu_config[isae::imu_config] --> sensor_config[isae::sensor_config];
```

The diagram illustrates a relationship between two classes. A light gray box at the bottom is labeled 'isae::imu\_config'. A dark gray box at the top is labeled 'isae::sensor\_config'. A blue arrow points vertically from the top of the 'isae::imu\_config' box to the bottom of the 'isae::sensor\_config' box, indicating that 'isae::imu\_config' inherits from or is a specialization of 'isae::sensor\_config'.
