

```
std::enable_shared  
_from_this< AModel3d >
```

```
graph BT; A[isae::ModelLine3D] --> B[isae::AModel3d]; B --> C[std::enable_shared_from_this< AModel3d >];
```

The diagram illustrates a three-step inheritance chain. At the bottom is a gray box labeled 'isae::ModelLine3D'. A blue arrow points upwards from this box to a white box labeled 'isae::AModel3d'. Another blue arrow points upwards from the 'isae::AModel3d' box to a light gray box at the top labeled 'std::enable_shared_from_this< AModel3d >'. The boxes are rectangular and the arrows are solid blue lines with triangular heads.
